

43rd specialist educational trade fair for teaching aids, equipment, culture and sport – from infant pedagogics to creative learning and supplementary adult education

November 18-20, 2021

Messe Wien

www.interpaedagogica.at

Interpädagogica is Austria's only trade fair for education and still up to date – although in its 43rd edition. This is how education becomes entertainment!

Education from A-Z

Education in all its facets – this is what you can experience in a comprehensible way at the Interpädagogica. We offer a full choice of products for teachers and educators.

Our network

Exhibitors, politics, stakeholders, teachers, educators and many more – personal contact is key for successful networking.

Lecture program = advanced training

For many years the Austrian Federal Ministry of Education acknowledges the Interpädagogica's lecture program as advanced training for teachers.

Roadshow

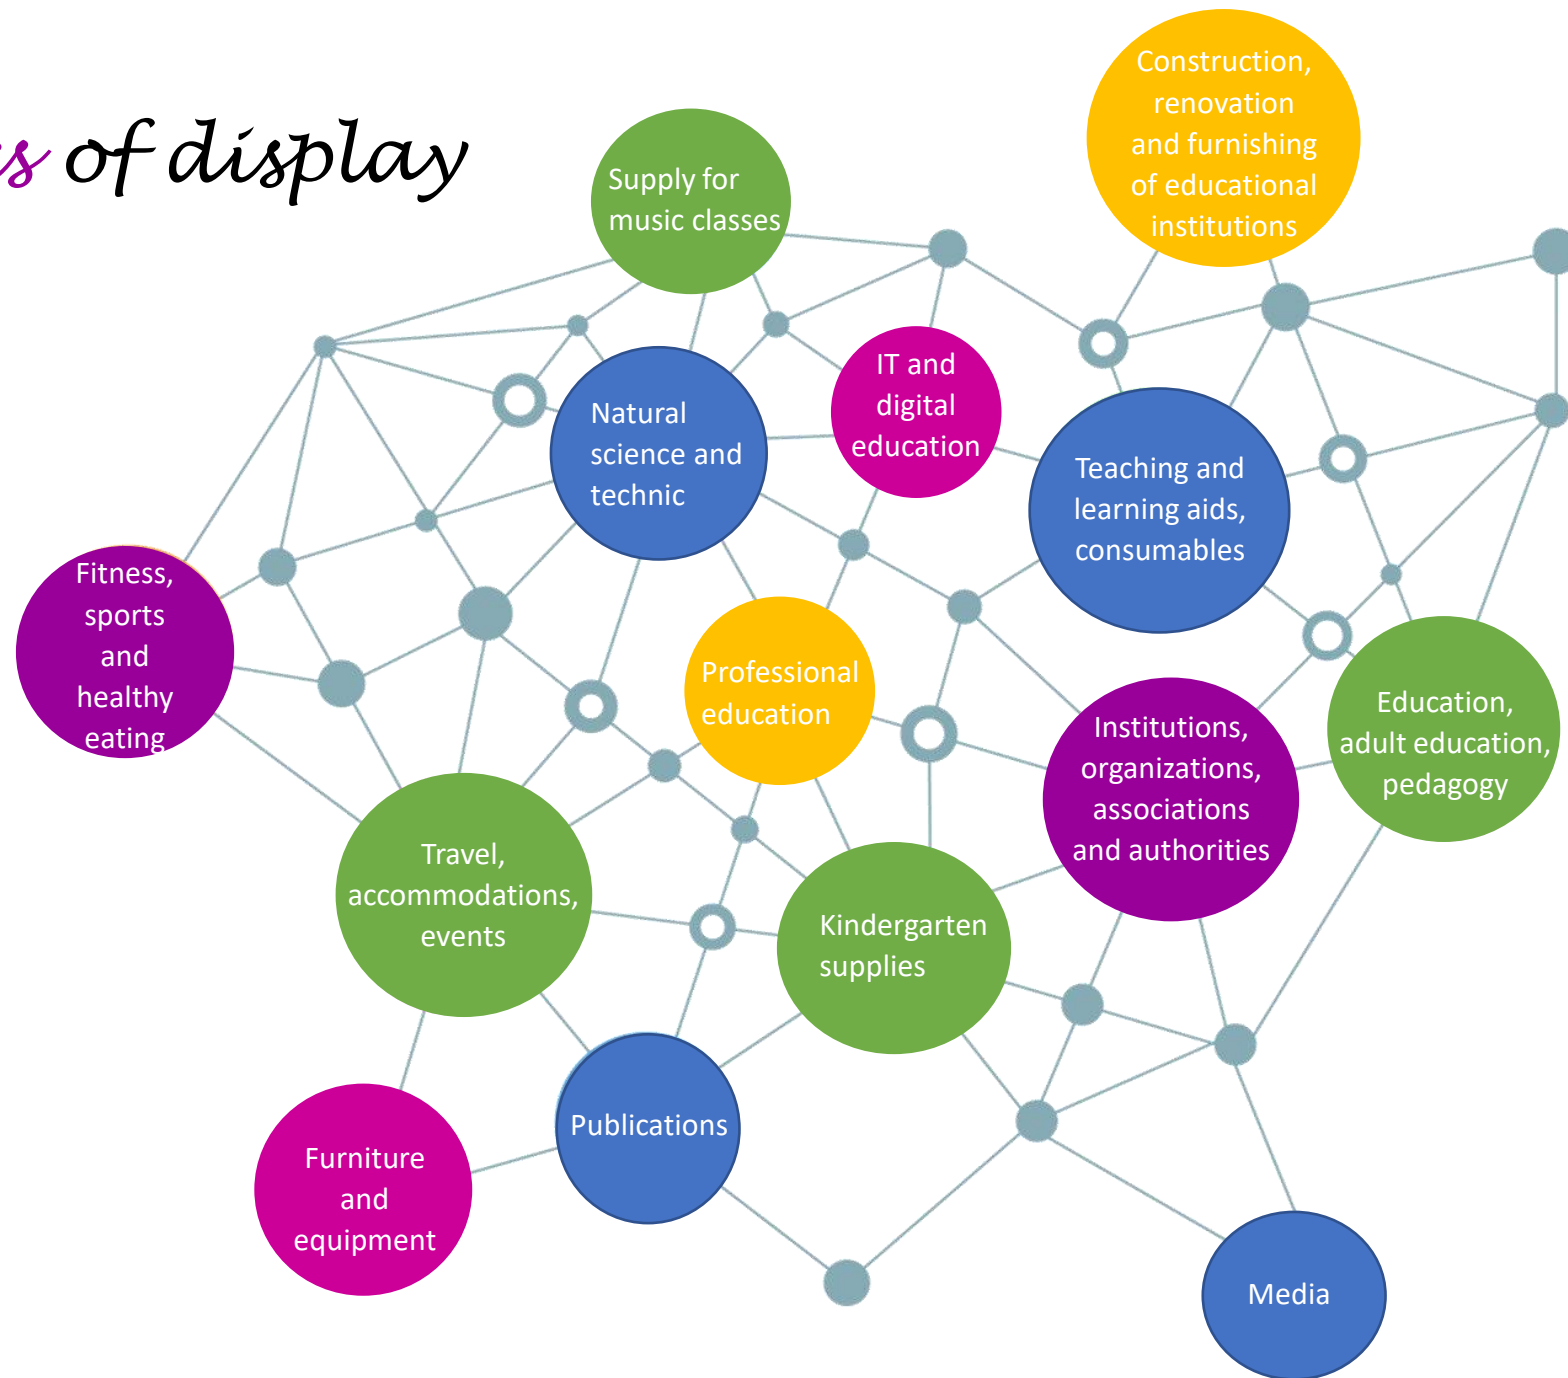

You can find the Interpädagogica, where its audience is: alternating between Vienna, Linz, Graz and Salzburg.

43 years Interpädagogica

The Interpädagogica is the most important hub for education in Austria – we always have the finger on the pulse of the time.

Further education and training

Interpädagogica's diverse training program includes panels, workshops, lectures and seminars for various target groups. The program is supported by the Austrian Federal Ministry of Education, which acknowledges the lecture program as further education for teachers and educators.

3. Österreichischer BildungsinfrastrukturTag (Austrian Educational Infrastructure Day)

The 3. Austrian Educational Infrastructure Day has its focus on construction, renovation, furnishing and equipping educational institutions. Participants from municipal and communal administrations from all over Austria discuss the main aspects of constructing, renovating, and maintaining kindergarten and school buildings.

studio4i

The synergy of modern equipment and the style of teaching can be experienced by partaking in workshops and live classes: interactive and guided by experts. The concept of studio4i was created together with the association BildungOnline.

eEducation Didaktik Fachtagung (online principles of teaching symposium)

Teachers and educators have the possibility to learn how digital devices can contribute classes. The goal is to gain added value for the students.

Elementarpädagogische Fachtagung (early childhood education symposium)

The special publisher "Unsere Kinder" presents current topics together with experts. The findings will contribute to the pedagogic work of principals and administrators of educational institutions, teachers and educators and students to become teachers.

Gained in practice, for use in practice

Lectures and workshops from various fields of interests enhance the offer in an ideal way to guarantee the visitors an additional benefit. The lecture program is a valuable part of Interpädagogica for many years now.
